We give life a new perspective

The diagnosis 'Cancer' changes daily life. Patients and their environment are exhausted by fears and uncertainties. Family members are overwhelmed, friends and acquaintances are unnerved.

You are not alone in this difficult situation, if you are affected by cancer. We are on your side - before, during and after treatments. Together we can develop new ways and orientations and we help you to deal with the illness.

Individual, marriage and family counseling will be done by our professional experts. We deal with:

- physical and mental stresses and strains
- the effect of the illness on marriage, partnership, family and friends

We also offer:

- different support groups
- courses on how to deal with the illness
- information and lectures on medical and psychooncological subjects
- relaxation and movement seminars
- sport activities
- art therapy

Help with social and financial issues

Cancer often creates social and financial worries. If you are in such a crisis situation, ask the experts at the Counseling Center of the Cancer Society how they can help you.

We offer support:

- in a financial crisis
- with followup care and rehabilitation
- with job and career matters
- to look for other psychosocial help

In urgent cases we also offer home visits and will come to the clinic.

We also offer reading material about the illness free of charge.

The psychosocial and psychooncological counseling is available to all cancer patients and their families. It is free of charge. Our staff is bound to the privacy act.
